Summary

Biologist turned front end software developer. Subscriber to a clean, simple, and user friendly aesthetic. Passionate about coding and learning new techniques and technologies. Lover of meteorology, astronomy, microbiology, loud music, and silly puns.

Experience

Front End Engineering Graduate, The Iron Yard

Little Rock, Arkansas — 2016

An extremely intensive and immersive 12-week course on HTML, CSS, and Javascript. Learned how to problem solve programming tasks using JavaScript and create dynamic websites and applications.

Laboratory Technician, Porocel Industries

Little Rock, Arkansas — 2015-2016

Routine QC/QA sampling every four hours, or more frequently as needed. Performed chemical, analytical, and physical testing on collected samples, utilizing both advanced instrumentation and physical testing methods.

Skills

Front End Development Tools and Technologies

- HTML / CSS
- SASS
- Bootstrap, Bourbon/Neat
- JavaScript
- AngularJS
- Responsive Design
- Firebase
- Git
- Ionic
